Edit

- The Release Train Engineer makes any number of changes to Features in Rally
- 2. Later, he/she visits the Annotate Feature Change Log Page and finds a chronologica list of changes according to the following criteria:
 - Feature created
 - Feature deleted
 - Name changed
 - Release changed
 - Must Launch Date changed
- 3. For each change, the Release Train Engineer can now decide to:
 - bury/ignore the change (e.g. fixing a typo)
 - annotate the change according to a textual mask
